PROJECT SPOTLIGHT

The existing kitchen was dated with golden, oak cabinetry and a beige backsplash. A peninsula cut off the flow between the kitchen and adjacent family room. The existing mudroom space lacked storage and functionality for this family of five. Key features of the new design include removing the peninsula to open-up the flow into the family room, a massive Cambria quartz clad island, professional grade appliances, and a custom mudroom. Finishes were updated with a palette of painted cabinetry, farmhouse sink, and mixed-metal finishes including brushed nickel and bronze.

DESIGN DISTINCTIONS

...with Jackie and Jaclyn

Our vision is to create a memorable brand experience while enhancing the quality of life for the clients we serve.

The final step in any remodeling project is professional photography. Our goal at the end of each project is to have completed a gorgeous, portfolio-worthy design that our clients are 100% happy with. We try to incorporate as many personal touches from the client as possible, whether that's enticing the family dog to pose for a shot or pulling those family heirlooms to the forefront of a cabinet. We want these photos to be something the client is just as proud of as we are. After a round of photography is complete, we publish them to our website and share a copy of them with the client; we love to feature our clients' beautiful homes, as often as possible!

OUR MISSION

Our mission at DiFabion Remodeling is to deliver an exceptional remodeling experience built on Trust, Vision, Pride, and Family, with the goal of exceeding our clients' expectations in every way.
